

AMENDMENTS TO THE SPECIFICATION:

Please replace the second paragraph on page 23 with the following amended paragraph:

Other embodiments are shown in Fig's. 5A, 5B, 6A, 6B, 6C, 6D, 6E, 6F, 6G and 6H. Fig's. ~~4A, 4B~~ 5A, 5B, 6A, 6B, 6C, 6D, 6E, 6F, 6G and 6H include a substrate having a substantially planar first surface oppositely spaced apart from a substantially planar second surface and an individually addressable Organic Light Emitting Diode (OLED) structure. In the embodiment shown in Fig's. 6A, 6B, 6C and 6D, a substantially transparent layer is deposited onto the OLED structure. The substantially transparent layer has a light receiving surface in effective light transmission relation to the transparent anode; the light receiving surface is oppositely spaced apart from a light emitting surface. A color filter material is deposited onto the light receiving surface of the transparent layer.
